

Golden Rapture Signs 50/50 Partnership on the Bully Boy Mine Minerals Claims

June 11, 2025 - Golden Rapture Mining Corporation (CSE-GLDR) is pleased to announce that it has signed a 50/50 partnership agreement with Michael Staples of South Hopkins, Minnesota, to explore the historical Bully Boy Mine's four patented mineral claims located directly adjacent to Golden Rapture's Phillips Township property, NW, Ontario.

Golden Rapture will become a 50% partner by conducting exploration on the four patented mineral claims, with all exploration costs to be incurred by Golden Rapture. No cash payment or shares were issued in this agreement.

Exploration in the area is said to have started around 1885, when a large number of high-grade gold discoveries were made and many properties were brought into production during what became known as the 'Lake of the Woods Gold Rush'.

There are 3 mine shafts on the claims and numerous mineralized quartz veins can be seen on the surface. Gold production numbers are unknown, if any.

The company is looking forward to exploring these mineral claims this summer.

Qualified Person

The technical disclosure in this news release has been reviewed and approved by John Archibald, P. Geo., Qualified Person as defined by National Instrument 43-101 of the Canadian Securities Administrators.

About Golden Rapture Mining Corporation

Golden Rapture Mining is a newly listed exploration company engaged in the acquisition, exploration and development of high-potential assets. The company's Flagship Phillips Township Property is located in the Rainy River District of NW Ontario and is comprised of 10,000+ acres of highly prospective past-producing high-grade gold systems.

Golden Rapture has now been listed for over 1 year with 37,469,390 shares presently issued.

Forward-looking statements include predictions, projections, and forecasts and are often, but not always, identified by the use of words such as “seek”, “anticipate”, “believe”, “plan”, “estimate”, “forecast”, “expect”, “potential”, “project”, “target”, “schedule”, “budget” and “intend” and statements that an event or result “may”, “will”, “should”, “could” or “might” occur or be achieved and other similar expressions and includes the negatives thereof. All statements other than statements of historical fact included in this release, including, without limitation, statements regarding the Company’s planned exploration programs and drill programs and potential significance of results are forward-looking statements that involve various risks and uncertainties. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements are based on a number of material factors and assumptions. Important factors that could cause actual results to differ materially from Company’s expectations include actual exploration results, changes in project parameters as plans continue to be refined, results of future resource estimates, future metal prices, availability of capital, and financing on acceptable terms, general economic, market or business conditions, uninsured risks, regulatory changes, defects in title, availability of personnel, materials, and equipment on a timely basis, accidents or equipment breakdowns, delays in receiving government approvals, unanticipated environmental impacts on operations and costs to remedy same, and other exploration or other risks detailed herein and from time to time in the filings made by the Company with securities regulators. Although the Company has attempted to identify important factors that could cause actual actions, events, or results to differ from those described in forward-looking statements, there may be other factors that cause such actions, events, or results to differ materially from those anticipated. There can be no assurance that forward-looking statements will prove to be accurate, and accordingly readers are cautioned not to place undue reliance on forward-looking statements.
