

## **GOLDEN RAPTURE ANNOUNCES EXPLORATION UPDATES ON THREE OF ITS PROPERTIES**

Edmonton, Alberta — April 28, 2026 — Golden Rapture Mining Corporation (CSE: GLDR) is pleased to announce the successful completion of its Spring surface sampling program at the Company's 100%-owned newly acquired Swell Bay patented mineral claims located in the Rainy River District, Ontario.

The program focused on locating historical trenches and collecting samples from the exposed gold-bearing quartz veins. **The Company accomplished its mission, located the old trenches and collected a total of 20 mineralized rock samples from quartz veins.** These samples will be delivered to AGAT Laboratories in Thunder Bay for analysis immediately.

**Golden Rapture is pleased to report that a prospecting and surface sampling program has also commenced at its 50%-owned Bully Boy Mine patented mineral claims in the Rainy River District, and at its 100%-owned Northern Queen Mine property located near Dryden, Ontario, bordering the Nexgold and Dryden Gold projects.**

**Please stay tuned for more updates.**

Included with this update are photographs of the 20 Swell Bay samples being prepared for shipment to the laboratory.

Forward-looking statements include predictions, projections, and forecasts and are often, but not always, identified by the use of words such as "seek", "anticipate", "believe", "plan", "estimate", "forecast", "expect", "potential", "project", "target", "schedule", "budget" and "intend" and statements that an event or result "may", "will", "should", "could" or "might" occur or be achieved and other similar expressions and includes the negatives thereof. All statements other than statements of historical fact included in this release, including, without limitation, statements regarding the Company's planned exploration programs and drill programs and potential significance of results are forward-looking statements that involve various risks and uncertainties. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements are based on a number of material factors and assumptions. Important factors that could cause actual results to differ materially from Company's expectations include actual exploration results, changes in project parameters as plans continue to be refined, results of future resource estimates, future metal prices, availability of capital, and financing on acceptable terms, general economic, market or business conditions, uninsured risks, regulatory changes, defects in title, availability of personnel, materials, and equipment on a timely basis, accidents or equipment breakdowns, delays in receiving government approvals, unanticipated environmental impacts on operations and costs to remedy same, and other exploration or other risks detailed herein and from time to time in the filings made by the Company with securities regulators. Although the Company has attempted to identify important factors that could cause actual actions, events, or results to differ from those described in forward-looking statements, there may be other factors that cause such actions, events, or results to differ materially from those anticipated. There can be no assurance that forward-looking statements will prove to be accurate, and accordingly readers are cautioned not to place undue reliance on forward-looking statements.
